Reading, Writing, motorsports, music, travel, internet, Hospital Radio, PHAB Magazine (founder), Advanced Driving.

COMMENTS

I am a very quick learner whatever the subject. For example, in an extremely short time I have *mastered* HTML from books and have now started to learn JAVASCRIPT. As a result, I have developed (many) web sites that demonstrate these new skills. Between April and July 2001 I learnt how to program with Delphi 5.
